

*Proud Sponsor of WTS...
...serving the Transportation Industry*

City Point Partners is a WBE/DBE firm providing construction services and owner's project management services serving the transportation industry. Our staff includes professional engineers, certified construction managers, certified cost professionals, Primavera schedulers, public outreach specialists, and resident inspectors. We are proud to be serving the Commonwealth, its agencies, municipalities, and A/E transportation firms.

Current transportation assignments include:

- ① Project Controls for MassDOT Bridge, Highway, and Rail Projects: CTD schedules and bottom-up estimates on multiple projects in conformance with MassDOT policies and procedures. The Marion Street Bridge in Natick is an example of a recent project.
- ② Owner's Project Management Services: We are currently serving MassDOT as Owner's Project Manager for the replacement of the Research and Materials lab in South Boston with a new facility in Westborough on I-90.
- ③ Construction Support Services: Resident engineers and inspectors, project control specialists, field administrators and public involvement specialists on numerous projects. We are working directly for Massport providing field engineering services on the upgrades to the baggage handling systems.
