Navigating the leadership pipeline can be challenging for women in transportation. This workshop will teach WTS members how to shine a light on their **authentic selves**, to learn **communication skills** and glean insights on the **differences between managing and leading**. Elizabeth Hannon, former COO of City of San Diego's Uptown Parking District and Director of Wisier Everyday is back with this interactive session to help WTS members explore:

- Are you managing vs delegating and empowering other team members or subordinates?
- Ideas to help decipher when it's time to move up and when it's time to move on.
- How to shift from being a peer to a manager.
- Learn how to conquer the "I can do it all" attitude to one that enhances creativity and productivity in others.
