

Ann L. Koby is a senior project manager with Parsons Brinckerhoff based in Austin, Texas. She has extensive experience managing and performing lead technical roles in environmental assessment and documentation, public participation programs, and agency coordination for transportation projects, including highways, transit, and transportation-related facilities. Currently, she is the agency liaison for the 'Interstate 69/Trans-Texas Corridor, a planned 650 mile long 650 mile corridor in Texas that will incorporate commuter, freight, and high speed rail, I-69, and utilities and connect Mexico, the United States and Canada.

Previously, she served as manager of environmental studies for the Oahu Primary Corridor Transportation Project in Oahu, Hawaii in preparation for designing the 16.4 miles of bus rapid transit on the island of Oahu. Prior to joining PB, Koby was a transportation planner for the Texas Department of Transportation and served the Beaumont District as the senior environmental planner on district-wide highway projects. She has authored numerous articles, including a study of Public-Private Partnerships in California.

Koby served as the WTS International president from 2006-2008 following 14 years in chapter and leadership positions with WTS. She was one of the founding members of the San Diego chapter. She received her B.B.A. at Lamar University.
