

Deborah Dagang is a Business Group Vice President and California Highway/Bridge Portfolio Leader at CH2M in Oakland, CA. Her responsibilities include maximizing the profitability of all highway/bridge projects for the firm in California. She has 30 years of experience in multimodal transportation engineering and planning, bus rapid transit implementation, traffic engineering, evaluation of transportation strategies, and consensus-building. Ms. Dagang has successfully led controversial multi-jurisdiction projects, for which she has translated technical details into concepts that clients and policy makers can understand and endorse.

Deborah has been an active member of WTS since she first joined the San Francisco Bay Area Chapter in 1986. She has served in many positions on her local chapter board, including President, and was named Member of the Year for the San Francisco Bay Area Chapter in both 1993 and 2008. Deborah was actively involved in both WTS Conferences held in San Francisco: Conference Chair for the 2011 WTS International Conference, and Fundraising Chair for the 1989 WTS National Conference. She is also active in CH2M's internal Women's Network. Prior to joining CH2M, Deborah was the second woman to serve on the Board of Directors for DKS Associates.

Deborah is a registered Traffic Engineer in the State of California. She received her Bachelor of Science and Master of Science degrees in Civil Engineering from Stanford University.
