

Danielle Smith, PE

Associate Vice President, Michael Baker International

Danielle Smith is the Transportation Operations Manager in Michael Baker's Denver office and oversees the roadway, traffic, construction management and structures teams that provide services in all aspect of transportation. Danielle has over 24 years of delivering transportation projects in Colorado and was involved in the nationally recognized multi-modal project T-REX and the FasTracks project. Danielle's leadership role as a program manager on FasTracks included experience of project prioritization, stakeholder coordination, highway and light rail design oversight, utility coordination, project controls, cost estimating, and project coordination. She has excellent communication and the ability to lead teams to implement projects and bring them to completion.

She has been active in the WTS Colorado Chapter since 1997, serving in roles as Secretary and President. She was WTS Colorado Member of the Year in 2016. She was named the Council Chair for the pilot Northwest Regional Council in 2014 and has served on the International Advisory Board. She will serve as Treasurer of the International Board and is looking forward to continuing to serve and promote the WTS mission.
