

Roadway Engineer

Atlanta, GA

Stantec

Your Opportunity:

Our Transportation group provides comprehensive planning, design, and engineering services for all phases of bridge, roadway, and projects. This is the place where great ideas and rewarding careers can really take off. With a unique multidisciplinary team approach, we're equipped with state-of-the-art simulation models, specialized design software, and computer-aided design and drafting (CADD) facilities. The ongoing success of our team allows you to set the pace of your career.

Your Duties:

Stantec is currently seeking a motivated professional Roadway/Transportation Engineer (Deputy Project Manager) to join our growing team in our Atlanta, GA office!

Qualified candidates should have experience with GDOT final design projects along with both Microstation & InRoads software experience.

Candidates must be able to work collaboratively with an experienced team of Engineers and Planners delivering quality plans to clients.

Your Capabilities and Credentials:

- *BSCE Civil Engineering or Civil Engineering Technology.*
- 4-8 years of roadway design experience.
- PE License desired, but not required.
- Proficient in Microstation/InRoads is a must.
- Experience and knowledge working on GDOT final roadway design and planning projects.
- Municipal project management experience a plus.
