

College Outreach Program: Caltrans District 7 Virtual Office Visit

Caltrans District 7 Virtual Office Visit, 2020

In a series of student programs aimed at networking and learning about transportation careers, the WTS-LA College Outreach committee organized a virtual office visit with Caltrans District 7.

Ten engineering and planning students from California State University, Northridge; Cal State Los Angeles, USC, and Bakersfield College joined us last week to learn about the Caltrans Liberty Canyon Wildlife Crossing project.

We were hosted by:

- **Barbara Marquez**, ENV SP, Deputy District 7 Director for Sustainability and Innovation and WTS-LA Transportation YOU Co-Chair
- **Sheik Moinuddin**, PE, Caltrans District 7 Project Manager
- **John Bulinski**, PE, District 7 Director and WTS-LA Director at Large.

They shared their experiences working on the largest wildlife crossing project in the world.
