

Globetrotters Engineering is a full-service professional organization based in Chicago that has served the public and private sectors since 1974 in the areas of design, management, and consulting. With 200+ personnel, we draw upon highly qualified and experienced staff with diverse expertise to provide cost-effective, sustainable, and responsive services to our clients.

Globetrotters provides architecture, engineering, construction management, permit plan reviews, facility and property management, consulting, and IT services. We are committed to planning, designing, constructing, and managing quality and sustainable infrastructure projects that play an integral role in the development and success of the communities we serve.

We are seeking a talented **TRANSPORTATION/TRAFFIC ENGINEER** for immediate employment in our downtown Chicago office to provide engineering services on complex highway and traffic infrastructure projects.

In this role, you will:

- Conduct traffic analysis and operational studies
- IDS monitoring
- Conduct traffic impact studies
- Traffic signal design
- Make technical decisions based on code interpretation as well as company, client, and industry standard practices
- Perform field visits to assess existing conditions
- Work closely with departmental management, other senior professionals and other team members
- Direct coordination between other disciplines
- Serve as a technical advisor for team
- Complete projects within budget and schedule
- Other tasks as assigned.

We are looking for someone who has:

- B.S. Degree in Civil Engineering
- 10 years or more years of experience in civil projects, including traffic and transportation experience
- Proficiency in MicroStation, GeoPak, and AutoCad
- Proficiency in traffic engineering software, such as Synchro
- Excellent oral and written communication skills
- Ability to work independently, but also in a team environment
- Illinois P.E. license is preferred

If you are interested, please send your resume to jobs@gec-group.com

At Globetrotters, you are offered the diverse opportunities that are found at a larger firm, but are within the more collaborative and close-knit environment of a mid-size firm. Your perspective and exceptional skills will be valued here.
