

Globetrotters[®]

Engineering Corporation

Globetrotters is a full-service professional organization based in Chicago that has served the public and private sectors since 1974 in the areas of design, management, and consulting. With 200+ personnel, we draw upon highly qualified and experienced staff with diverse expertise to provide cost-effective, sustainable, and responsive services to our clients.

Globetrotters provides architecture, engineering, construction management, permit plan reviews, facility and property management, consulting, and IT services. We are committed to planning, designing, constructing, and managing quality and sustainable infrastructure projects that play an integral role in the development and success of the communities we serve.

We are seeking a **CIVIL DESIGN MANAGER** to help provide technical and project leadership to our civil group.

Responsibilities include:

- Leading and managing the design of Civil projects, including highway, roadway, and bridge.
- Provide QA/QC review for design calculations and drawings
- Serve as technical advisor for staff
- Development and mentoring of junior staff
- Cultivate client relationships
- Oversight and management of staff
- Proposal development
- Other duties, as assigned

Requirements:

- B.S. in Civil Engineering
- Illinois P.E. License
- 15 plus years of related technical experience
- 5 plus years of managing a staff
- Relationship building skills
- Excellent communication skills
- AutoCAD, MicroStation, MS Office, and other related software knowledge

At Globetrotters, you are offered the diverse opportunities that are found at a larger firm, but are within the more collaborative and close-knit environment of a mid-size firm. Your perspective and exceptional skills will be valued here.

For consideration, please send your resumes to jobs@gec-group.com
