

▶ Designer – Bridge Structures

Stahl Sheaffer is currently seeking to hire a **Designer** to join our Bridge Structures group at any of our Pennsylvania office locations – Canonsburg, Clearfield, Harrisburg, Selinsgrove, or State College.

Bridge Designer Responsibilities:

- Assist the project team in the development and design of bridge replacement/rehabilitation projects which consist of the plans, specifications, and estimates
- Develop feasible design alternatives and compare significant parameters
- Review design details and coordinate technical recommendations
- Assess the cost-effective constructability of the project and generally evaluate the quality of the project
- Assist in the preparation or modification of reports, studies, permits, and designs for various projects
- Work with CADD technicians to reduce designs to working drawings
- May also involve NBIS bridge inspections

Minimum Requirements for the Position:

- B.S. in Civil Engineering (BSCE)
- Engineer-in-Training (EIT) or ability to obtain certification within one year of hire
- A valid driver's license and daily access to a motor vehicle
- The ability to obtain state and federal background clearances to permit working on-site when necessary

Preferred Qualifications:

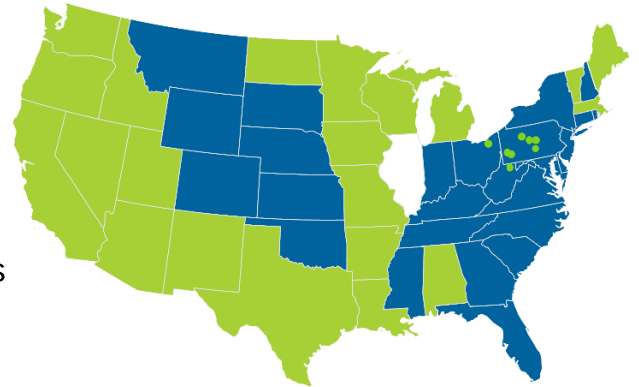

- Up to 5 years of experience in bridge structure design/detail for PennDOT, PA Turnpike, and/or similar local projects
- Experience with PennDOT bridge design programs and design manuals a plus
- Knowledge/experience with Bentley Microstation
- CBSI experience/certification a plus
- Proficiency with Microsoft Office programs including Word, Excel, and PowerPoint
- Excellent oral, written, and interpersonal communication with co-workers, clients, and the general public
