2022 Annual Gala Cocktail Reception

October 26, 2022

PROGRAM

Cocktail Reception

Opening Remarks	Desiree Gazzo, WTS-GNY Director-at-Large, Special Events Committee Liaison
Welcoming Remarks	Carla Artis, WTS-GNY President
Scholarships	Danielle Selzer and Neda Moini, WTS-GNY Scholarship Committee co-chairs
Scholarship Recipients	Kara Gurl, Amanda Klepper, Jalise Matthew, Sevin Mohammadi, Lillian Moy, Julisa Arteaga, Farnoosh Namdarpour
Special Message	Mayor Eric Adams
Special Guest Speaker	Polly Trottenberg, Deputy Secretary, US Department of Transportation
Introduction	Nuria Fernandez, Administrator, Federal Transit Administration
Woman of the Year	Meera Joshi, Deputy Mayor for Operations, New York City
Closing Remarks	Ece Koch, WTS-GNY Vice President
Raffle & Fundraiser	Sarah Colker, WTS-GNY Special Events Committee Chair

WTS-GNY extends its deepest gratitude to all who contributed to the Scholarship Fund and/or purchased raffle tickets.

If you have not had a chance to donate and would still like to, please [click here](#) or send a text message to 41-444.

The message should include the code WTSGNY2022GALA, the amount of donation and your name.

An example can be found below:
WTSGNY2022GALA \$50 Jane Smith

You will then be sent an online donation form that you can use to make a payment.

Thank you to those who contributed to the WTS Raffle:*

Message from WTS-GNY President Carla Artis

Welcome to the WTS Greater New York (WTS-GNY) Annual Gala! We are thrilled to be able to gather again in person as we honor our 2022 Woman of the Year, New York City Deputy Mayor Meera Joshi. This award is given to a leader who has made an outstanding

contribution to the transportation industry and personally helped to advance women and minorities. During a career that spans over 25 years, Joshi has served as commissioner and chair of the NYC Taxi and Limousine Commission; administrator of the Federal Motor Carrier Safety Administration; and now as deputy mayor for Operations overseeing the City's infrastructure and transportation agencies. Her leadership is moving our City and the industry forward.

As the world slowly emerges from COVID's shadow and adapts to new realities, the chapter is holding in-person, virtual and hybrid events. Tonight, we celebrate the successes of our scholarship recipients and encourage them to continue striving to achieve their

goals because they are the transportation industry's future. WTS-GNY also looks forward to the innovative and diverse programming its committees are planning to help us learn more about one another and how our differences are our strengths.

The Gala, and all our events throughout the year, would not be possible without the efforts of our dynamic members. WTS-GNY is grateful for the endless volunteer hours provided by our Board of Directors and hardworking committees. Meanwhile, the generosity of our corporate partners deserves special recognition. A strong community is the cornerstone of this organization. WTS-GNY remains committed to supporting its members and furthering its mission. Please take advantage of upcoming opportunities to meet. Only by building our network can the industry grow and evolve.

Thank you all for your support. I hope you enjoy the evening! ■

2022 Woman of the Year Meera Joshi

Deputy Mayor for Operations, New York City

Meera Joshi is the deputy mayor for Operations, overseeing the City’s infrastructure portfolio. Prior to joining the Adam’s administration, Joshi was named by President Biden as deputy and acting administrator of the U.S.DOT’s Federal Motor Carrier Safety Administration, which is responsible for regulation of interstate trucking. In this role, she led initiatives aimed at improving roadway safety; the working conditions of truck drivers; and accountability mechanisms to integrate automation. Previously, Joshi was chair and CEO of the New York Taxi and Limousine Commission, the nation’s largest for-hire transportation regulator. In this role, she spearheaded Vision Zero campaigns aimed at keeping high-risk drivers and unsafe vehicles off the road. She also oversaw landmark policy,

including establishing robust open transportation data standards; enacting the nation’s first for-hire driver pay protection program; and providing broad and on-demand access to for-hire transportation for passengers who use wheelchairs. Her career in City government also includes a stint as inspector general of the Department of Corrections. She investigated corruption and wrongdoing at all levels of jail operations. Joshi also was first deputy executive director of the Civilian Complaint Review Board, where she led probes of civilian allegations into police misconduct. Meanwhile, her private-sector experience includes working as general manager of the New York office of Sam Schwartz Transportation Consultants and as a visiting scholar at New York University’s Rudin Center for Transportation Policy. Joshi holds a B.A. and J.D. from the University of Pennsylvania. ■

Introduction by Nuria Fernandez

Nuria Fernandez was confirmed by the U.S. Senate as the 15th administrator of the Federal Transit Administration (FTA) on June 10, 2021. Previously, she was appointed as deputy administrator and senior FTA official in January 2021. With over 35 years of experience, Fernandez made a name for herself as an inspiring leader in the transportation industry. Before joining the FTA, she served as general manager and CEO of the Santa Clara Valley Transportation Authority (VTA), where she was responsible for 2,100 employees and oversaw projects and transit programs that provide mobility solutions for more than two million individuals who live and work in Silicon Valley.

Among the highlights of her tenure at VTA was the completion of the first Bay Area Rapid Transit (BART) heavy rail service into Silicon Valley, a 10-mile, \$3 billion line that opened

to passenger service in June 2020. She also secured federal approval in 2018 to extend the heavy rail service for another six miles. When completed in 2026, the heavy rail service will total 16 miles of rail and six stations that will provide transit alternatives for tens of thousands of commuters in and around the Silicon Valley.

Fernandez was responsible for the creation of VTA's Innovation Center, an incubator to encourage collaboration; test the latest technology; and imagine new ways to keep the region moving forward by leveraging the expertise of Silicon Valley's high-tech corporations and universities.

Her career also encompasses leadership positions at some of the busiest transit agencies in America, including COO of the New York Metropolitan Transportation Authority; senior vice president of Design and Construction for the Chicago Transit Authority (CTA); and the Washington Metropolitan Area Transit Authority. In addition, she served as commissioner for the Chicago Department of Aviation, overseeing O'Hare and Midway airports.

In 1997, Fernandez was appointed by President Bill Clinton as acting administrator of FTA, where she oversaw all programs, includ-

WTS-GNY Scholarship Committee Co-Chairs

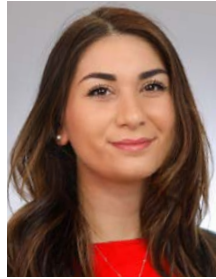

Danielle Selzer

2016 with a bachelor's degree in Civil Engineering. After graduation, Selzer joined the AECOM Pittsburgh office for three years as a designer on a three-mile rural highway project consisting of the redesign of two large interchanges. She transferred to the New York City office and has been serving with the Design-Build team for the past two-plus years on

Danielle Selzer is a civil engineer working in AECOM's New York City office. Selzer graduated from Bucknell University in

the Hunts Point Interchange Project located in the Bronx. Recently, Selzer passed the New York PE exam. Previously, she was involved with the WTS Transportation YOU Committee in Pittsburgh.

Neda Moini

Amherst. She joined AECOM's Transportation Highway Bridge group in 2017. Since then, she has

Neda Moini received her B.S. in Civil & Environmental Engineering from the University of Massachusetts

worked on several projects providing civil engineering services and assisting in roadway, street reconstruction, drainage, and utility improvements through the development of contract drawings, specifications, cost estimates and technical reports. She has always been passionate about planning and building a better city. Moini is excited to transition to HNTB this month, where she will work in the Civil Department. Moini has been co-chair on the WTS-GNY Scholarship and Awards Committee for two years and is continuously inspired and empowered by the other members and her colleagues in WTS. ■

Introduction by Nuria Fernandez

continued from page 4

ing \$1 billion in annual grants to local communities for planning, design, and construction of new and expanding rail and bus systems.

She served as chair of the American Public Transportation Association from 2019 to 2020, as well as on the boards of the Mineta Transportation Institute, The Transportation Learning Center and the Executive Committee of the Transportation Research Board.

Fernandez holds a B.S. in Civil Engineering from Bradley

University and an M.B.A. from Roosevelt University. ■

WTS-GNY 2022 Scholarship Recipients

HELENE M. OVERLY MEMORIAL/ LEONARD BRAUN MEMORIAL SCHOLARSHIP

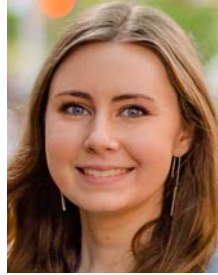

Sevin Mohammadi

Sevin Mohammadi is a Ph.D. student in Civil Engineering and Engineering Mechanics department at Columbia

University. She holds an MS in Transportation Engineering from the University of Tennessee Knoxville, where she was the vice president of the WTS school chapter and social director of the Institute of Transportation Engineers student chapter. Her research is at the intersection of transportation engineering, smart cities, and operational research, where she develops statistical machine learning methods. As a Ph.D. student, she was one of the members of the Columbia Engineering researchers who teamed up with the New York City Fire Department to optimize ambulance response during the pandemic. Mohammadi and her colleagues were among the finalists in the 2021 INFORMS Doing Good with Good OR Student Paper Competition.

NATIONAL LEADERSHIP LEGACY SCHOLARSHIP

Kara Gurl

Kara Gurl is a third-year graduate student at Hunter College pursuing her master's degree in Urban Planning with

a concentration in Transportation. Gurl received her undergraduate degree in Urban Studies from Columbia University. She is a lifelong transit rider who plans to use her career and education to improve the City's regional public transit network. Gurl is the Research and Communications associate at the Permanent Citizens Advisory Committee to the MTA (PCAC), where she helps to advocate for transit riders around the MTA region. She has over eight years of experience in advocacy and organization on her local Community Board and on political campaigns. Gurl has conducted research and writing on transportation issues, including the benefits of congestion pricing; the cost of low transit ridership; improving micromobility options; and increasing community participation in the planning process.

SHARON D. BANKS MEMORIAL/ SUSAN MISZKOWICZ MEMORIAL UNDERGRADUATE SCHOLARSHIP

Lillian Moy

Lillian Moy is a junior studying Civil Engineering at Hofstra University. During her sophomore

year, she conducted research on the rapid prototyping of small-scale models using 3D printing pens with Professor Segal. Moy worked as a field engineer intern at Turner Construction, where she was responsible for processing submittals, coordinating with trades, and other duties at two healthcare project sites. Currently, she is interning in Turner Construction's VDC/BIM department. In this role, she is assisting VDC engineers to develop logistics and animations for sales pursuits. Moy values mentorship and has served as Hofstra's Society of Women Engineers (SWE) mentorship chair; volunteered at SCALE RULE's concept design workshops; and works as a tutor for high school and college students. After graduation, Moy hopes to play an integral part in the design and construction of major city infrastructure.

MOLITORIS LEADERSHIP SCHOLARSHIP FOR UNDERGRADUATES

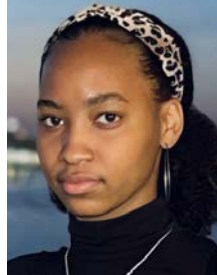

Amanda Klepper

Amanda Klepper is a senior at Columbia University studying Civil Engineering, with a concentration in Structural

Engineering and Construction Management. She also is pursuing minors in Architecture and Dance. During a gap year after her sophomore level studies, Klepper was a structural engineering intern in a bridge design group at WSP. In the summer before her senior year, she interned with HNTB in a project management consultant group working on ADA accessibility upgrades to subway stations across New York City. After graduation, Klepper plans to pursue her master's degree in Structural Engineering, with the goal of obtaining a P.E. license. At school, she contributed to a New York State Energy Research and Development Authority (NYSERDA) funded research project investigating the performance of carbonated recycled cement paste in cement mixes. In addition, she serves as the events coordinator for Columbia's American Society of Civil Engineers (ASCE) Student Chapter. Recently, Klepper attended the ASCE Student Days conference, where her team placed second in the proposal competition.

COMMUNITY COLLEGE/ TECHNICAL/TRADE DEGREE SCHOLARSHIP

Jalise Matthew

Jalise Matthew is a third-year undergraduate at Vaughn College of Aeronautics and Technology majoring in Airport

Management with a minor in Air Traffic Control. Her goal is to become an air traffic controller in the near future. Matthew has a background in business, obtaining an Associate of Science in Business Administration at the Antigua and Barbuda International Institute of Technology. As a recent inductee into the National Society of Leadership and Success (NSLS) and a resident assistant (RA), she has developed leadership, communication and decision-making skills. Between attending classes and working as an RA, Matthew also works part-time in her school's library as a Reference and Information Services assistant. For the past year, she has taken steps to start a female soccer team, while participating in the Women are Warriors athletic program.

Infra Tech Engineering is awarding the following scholarships in honor of the firm's founder.

INFRA TECH S. DAVID ALI MEMORIAL GRADUATE SCHOLARSHIP

Farnoosh Namdarpour is a Ph.D. candidate in Transportation Planning and Engineering at New York

Farnoosh Namdarpour University (NYU) and a recipient of Tandon School of Engineering Fellowship. She holds a M.S. in Transportation Planning and Engineering from Amirkabir University of Technology, where she worked on “Travel Mode Detection of Smartphone Data Using Genetic Programming” in her thesis. Prior to joining NYU, she served as a Java programming intern at Barazaman Venture Builder and as a data scientist at YapAiTek to enhance her professional skills. As a result of emerging transportation technologies, data sources, and advancements in artificial intelligence techniques, Namdarpour believes that tremendous potential exists to improve transportation systems. By utilizing these developments and available tools, her goal is to promote sustainability and mobility. Currently, she is a member of WTS and Young Professionals in Transportation (YPT).

INFRA TECH S. DAVID ALI MEMORIAL UNDERGRADUATE SCHOLARSHIP

Julisa Arteaga is a junior pursuing a degree in Civil Engineering at Manhattan College. She is on the Dean's

Julisa Arteaga List. As a board member of the American Society of Civil Engineers (ASCE) of City College, Arteaga helped to organize trips where students had the opportunity to garner first-hand experience of how projects are structured and played out on the field. Two sites where the group visited were NYSDOT Hunt's Point Corridor and the Manhattan West Project at Hudson Yards. Aside from being a ASCE board member, Arteaga also worked on a project where she employed QGIS to map out all medical centers in Queens using geospatial data. In a separate project, she conducted a survey using a total station and used QGIS to map out placement for a chicken coop, which she and her group later designed using AutoCAD. Arteaga is passionate about using civil engineering to improve the public's quality of life.

How do you see the Infrastructure Investment and Jobs Act (IIJA) impacting the region's transportation sector?

We asked our local leaders:

Keri Cibelli

“The IIJA finally walks-the-walk of what industry professionals have been saying for so long: we need to fund sustainable, resil-

ient, and equitable infrastructure projects that help to form the backbone of our modern economy. The communities of our Greater New York region will directly benefit from such projects. Accessibility to safe transportation systems and facilities is just one of the fundamental infrastructure needs that Americans should come to expect from this monumental government legislation.”

Keri Cibelli, senior technical director, AKRF

Marcia Shapiro

“At the WTS Annual Conference, Shelby M. Scales, director of the U.S.DOT’s Office of Small and

Disadvantaged Business Utilization, discussed the IIJA’s impact on DBEs at the 2022 Women Business Owner’s Roundtable. While acknowledging the opportunities that the law will yield, I joined other roundtable members to highlight the hurdles facing women owners of small- to medium-size firms. This led WTS International and the members of the 2022 WBE Roundtable to draft a follow-up letter to Director Scales with specific recommendations for these issues in future legislation. A top priority is to consolidate the certification process by providing a national certification for DBE firms, or through home state certification with simple reciprocity by other states/agencies to replace the current requirement for separate certification by each state. We hope that U.S.DOT will address this along with other challenges related to revenue caps and ownership rules to allow DBEs to take advantage of the opportunities offered by this groundbreaking legislation.”

Marcia Shapiro, president, Marine Tiger Technologies

Clarelle deGraffe

“The passage of the federal infrastructure law is a game-changer for leaders in transportation who are eager to put these valuable

resources to work for the benefit of the traveling public. Our collective goal always is to build a better and more efficient national and regional infrastructure system. This goes a long way toward achieving it.”

Clarelle deGraffe, director/general manager, PATH, Port Authority of NY & NJ

2022 Events Recap

WTS-GNY's programs aim to uphold its mission to attract, sustain, connect and advance women's careers to strengthen the transportation industry.

HNTB Is a Proud Supporter of WTS

And Its Vision of Equity and Access for Women in Transportation

HNTB is committed to a culture of integrity, technical excellence, respect, development, and commitment. We embody our principles of inclusion, diversity, and equity through our work, and we strive to champion this culture in everything we do and everyone we work with. Amplifying visionary voices and innovating unique solutions: that's HNTB.

Congratulations 2022 Woman of the Year:

Structural Vibration

Environmental

Building Isolation

Architectural Acoustics

We currently have a staff of 24, are a nationally-certified SBE, a WTS supporter, and are proud that almost 50% of our staff are women. Due to our long tenure in the industry, quite rare for a small firm, we have been influential in developing the foundations for what are now the standards for acoustics, noise and vibration in rail transit.
