Job Description

Modern Mobility Partners, a female and minority-owned transportation planning and traffic engineering firm founded in January 2018, is looking for a **Senior Transportation Planner**. The position could be located at either at our company headquarters in Atlanta, GA, or remotely in Chattanooga, TN, Nashville, TN, Jacksonville, FL, Orlando, FL, or Tampa, FL.

This position will assist our growing firm in the management and production of transportation planning studies, analyses, processes, and reports. This position could also include management of entry-level and internship staff. The candidate will have the opportunity to support project managers and senior leadership in project delivery and business development in the field of transportation planning across all modes, planning processes, data analytics, project prioritization and performance measures, funding/grant strategies, and/or new and emerging technologies, among other disciplines as needed.

The individual will have the opportunity to work with a dynamic team to complete a variety of projects. Tasks may include but are not limited to:

- Assist with research and literature reviews for planning studies
- Manage tasks and/or projects, including developing and monitoring scopes, schedules, and budgets;
- Coordinate with mid-level, entry-level, and internship staff on assignments
- Conduct QA/QC on staff technical analyses and writing
- Communicate on project/task status, schedule, and project activities with clients and project teams
- Prepare PowerPoint presentations to clients and project teams
- Conduct advanced data analysis with big data sources using tools such as Excel and / or R
- Write and edit reports
- Identify planning tools for development
- Identify challenges and opportunities and developing solutions that best meet the project needs
- Mentor and train mid-level, entry-level and internship staff

Required Qualifications

- M.S. Degree in City/Regional/Urban Planning or Engineering
- Minimum of 5 years of experience in transportation planning or engineering
- Proficiency in Microsoft Office

- Ability to think independently, including identifying challenges, opportunities, and solutions

Preferred Qualifications

- AICP or PE license or ability to obtain within one year
- GIS Analysis
- Programming and Coding such as R

Why Choose Modern Mobility Partners?

Learn transportation planning methods and practices from some of the most reputable transportation planners and project managers in the industry. Be part of an exciting new firm with great energy and a desire to push the envelope, think outside the box, and provide value to our clients and teaming partners.

This position offers a lot of hands-on experience and provides great opportunities to work on a variety of projects across different transportation arenas. We also offer commuting and cell phone reimbursements, 100% paid medical benefits, 401K after 1 year and so much more.

In 2020, Modern Mobility Partners was awarded Atlanta Business Chronicle's Best Places to Work.

Modern Mobility Partners is an equal opportunity employer. We are proud of our diversity and embrace humans of every background, race, religion, color, national origin, gender, gender identity, sexual orientation, age, marital status, veteran status, and disability status. We are not in the habit of hiring jerks, even brilliant ones.
