

2026 WTS CAPITAL SUMMIT

June 20-26, 2026

Advancing women
Advancing transportation

About the WTS Capital Summit

The **WTS Capital Summit**, a signature program of Transportation YOU, offers students an opportunity to meet transportation industry thought leaders, government and administration officials, and college students beginning their own career journeys in the industry. Historically, the Summit brings high school-aged mentees and transportation professional mentors to the Washington, D.C. area for a day summer program of tours, lectures, and interactive experiences showcasing careers in transportation. Students register to attend the Summit through **WTS Chapters**.

The Summit provides participants experience in engineering challenges, professional development and leadership skills development, networking events, local tours, and opportunities to learn about core transportation development components, such as accessibility, livable communities, and urban planning. Tours may include the U.S. Department of Transportation; the U.S. Capitol, local airports, highway research facilities, rail and transit, live engineering projects, port operations, and other transportation hubs. The Summit connects students with transportation professionals and encourages them to consider a wide variety of future undergraduate and advanced degree opportunities that lead to a variety of careers in the industry.

Why Sponsor?

AN EXPERIENCE SHE WILL NEVER FORGET

What does it take to provide a week of exclusive programming, college campus experience, and behind the scenes tours of transit, airports, Congress, port infrastructure, and more?

Financial support from generous sponsors closes the financial gap for many of our WTS Chapters, who are reinvesting into local mentoring and educational programs, and create opportunities for the next generation of industry leaders. Scholarships and fellowships change the lives of our students, our WTS mentors, their families, their communities, and the future of our industry.

ABOUT TRANSPORTATION YOU

The mission of the Transportation YOU program is to develop the next generation of the transportation industry by growing the involvement and interest of girls and young women in STEM studies and more. Through the program, **WTS Chapters** work to make a difference in the lives of girls by offering activities that introduce them to all modes of transportation, and encourage school course selection in math, science, technology, and communications – the stepping-stones to careers that can change the face of the transportation industry.
