

DEI IN MOTION

Celebrating Women's History Month

March 2026

This Women's History Month, we honor the legacy and impact of women who have shaped and continue to shape the transportation industry. From early pioneers who broke barriers in engineering and planning to today's leaders advancing innovative, multimodal solutions, women have played a crucial role in creating safer, more connected communities.

In our field, that impact is evident daily:

- Designing complete streets that prioritize safety for pedestrians, bicyclists, and all road users.
- Advancing transit systems that improve access to jobs, education, and essential services.
- Leading community engagement efforts that ensure transportation projects reflect the voices of those they serve.
- Championing equity in infrastructure so that mobility works for people of all ages, abilities, and backgrounds.

As we celebrate, we also recognize the importance of continuing to support and elevate women in transportation through mentorship, leadership opportunities, and a commitment to inclusive workplaces. Together, we are not just building infrastructure; we are shaping the future of mobility.
