How are we Doing?

PRESIDENT'S MESSAGE

The Next Generation of Leadership Starts With Us

As I reflect on the continued growth of WTS New Jersey, one of the things that makes me most proud is the incredible community of leaders we have built together. Since our chapter's ratification in 2020, our members and volunteers have brought their time, talent, ideas, and passion to creating opportunities for professional development, networking, mentoring, student outreach, and meaningful connections across New Jersey's transportation industry.

It is with tremendous excitement that I officially share the membership approved

2027–2028 WTS New Jersey Board of Directors:

- President: Kyrra Hana Mosley, Michael Baker International
- Vice President: Dana Hecht, H&H
- Secretary: Falecia Rowe, Artheon, Inc.
- Treasurer: Marie Samson, New Jersey Department of Transportation
- Advisory Council: Nia Joseph, Port Authority New York New Jersey PATH
- College Outreach: Megan Sattur, Dewberry
- Communications: Alison Kucsan, Artheon, Inc.
- Corporate Partners & Agency Affiliates: Nancy Argueta, GFT
- Membership: Elaine Hughes, STV
- Mentoring: Taylor Danson, H&H
- Transportation YOU: Marissa Guadagno, WSP
- Past President: Jacqueline Rooke, Michael Baker International

I am thrilled about this next generation of chapter leadership and the energy and experience, they will bring to WTS New Jersey. But leadership within WTS NJ extends far beyond the Board. Our committees are where so much of our mission comes to life, and they are also where tomorrow's chapter leaders are developed. I encourage every member to consider stepping forward. If you are interested in serving as a Committee Chair, Vice Chair, or

PRESIDENT'S MESSAGE CONTINUED

or committee member, please send an email to wtsnewjersey@gmail.com to express your initial interest. Our formal call for committee participation will be shared early next year.

At WTS New Jersey, our commitment to building multigenerational transportation leaders is so important which is why I want to again note, our program Transportation YOU. This program introduces students from elementary through high school to the many careers and pathways within transportation, fostering curiosity, mentorship, collaboration, and the confidence to see themselves as part of our industry's future. As WTS New Jersey looks ahead, we are excited to expand this program and create even more opportunities to prepare the next generation of transportation leaders

To me, there is a powerful connection between these two moments. We cannot simply hope the next generation will lead. We have to show them how, create opportunities for them to practice leadership, and then make room for them to step forward. Whether we are introducing a student to transportation through Transportation YOU, encouraging a young professional to join a committee, asking a member to become a Vice Chair, or welcoming someone onto our Board, we are strengthening the leadership pipeline our transportation industry will depend upon.

As I prepare to move into the role of Past President, I am proud of how far WTS New Jersey has come, and I am even more motivated about where we are going. Leadership is not simply about who holds elevated titles. It is about who we inspire, mentor, encourage, and empower to lead tomorrow.

I hope each of you will find your place on that journey and that you will continue to make WTS New Jersey a part of it.

Jacqueline Rooke
President, WTS New Jersey Chapter

EVENT RECAPS

July 2026 - October 2026

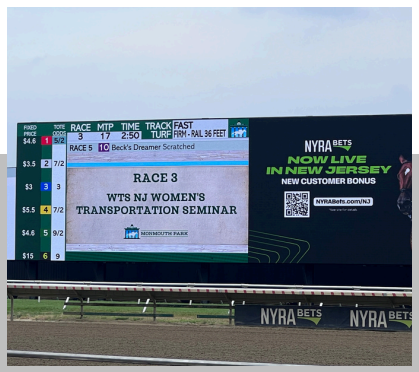

Friday, July 10	WTS NJ Gallop and Gather
Wednesday, July 15	WTS NJ Technical Series Session #4
Thursday, Aug 6	WTS NJ Swing for Scholarship
Thursday, Aug 13	WTS NJ Summer Intern Soiree
Wednesday, Sept 16	WTS NJ Technical Series Session #5
Tuesday, September 29	WTS NJ and NJTA Driving Forward Together

Gallop and Gather: A Winning Day of Networking!

WTS NJ, in collaboration with ACEC New Jersey, hosted another fantastic Gallop & Gathering at Monmouth Park Racetrack on July 10, 2026! The event brought together a wonderful mix of transportation and engineering professionals for an afternoon of networking, connection, and fun. The highlight of the day was getting an up-close look at the excitement of the racetrack—we were even invited into the winner's circle alongside the jockeys for the race we sponsored! It was a memorable experience that made an already great event even more special. Each year, Gallop & Gathering continues to grow and get better, creating valuable opportunities to strengthen relationships, make new connections, and celebrate our industry community. We're grateful to everyone who attended and helped make this year's event such a success, and we look forward to another winning year ahead!

Technical Series Session #4: Advancing Fire Safety in Battery Electric Buses (BEBs) and Battery Energy Systems (BESS)

The fourth session, “Advancing Fire Safety in Battery Electric Buses (BEBs) and Battery Energy Storage Systems (BESS),” was presented by experts from GFT. The presenters explored the unique fire-safety challenges associated with electrified transit as agencies move to zero-emission fleets. When the lithium-ion batteries in electric buses do catch fire, they can go into "thermal runaway," where heat spreads from one battery cell to the next. These fires are hard to put out, can reignite, and can spread to nearby buses in a crowded depot. The panel walked through ways to reduce the risk by isolating buses, using onboard early-warning and suppression systems, and leaving firefighting to trained first responders. In parallel, as the electrification ecosystem expands, energy storage safety is becoming increasingly relevant—particularly for battery energy storage systems (BESS), which use similar lithium-ion chemistries. Unlike BEBs, BESS can adopt alternative battery types that trade energy density for improved safety. In support of safer and more flexible deployment options, GFT has explored a range of next-generation chemistries, and continues to drive progress toward resilient, zero-emission transit networks.

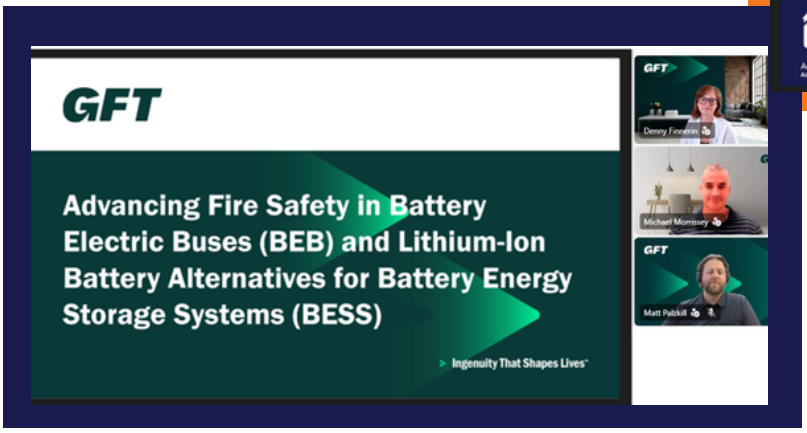

The session offered attendees practical insight into how thoughtful facility design, operational planning, emergency preparedness, and advancing battery technology can support the continued transition toward safer, resilient, zero-emission transit systems.

11 participants attended this session. Thanks to GFT, this session offered 1.0 PDH credit to attendees.

Speaker(s):

We would like to thank our speakers, **Michael Morrissey, FPE, CFPS, CPD, Senior Mechanical Engineer/Senior Fire Protection Engineer, GFT, Denny Finnerin, PE, PMP, TSSP Assistant Director, Security & Safety, GFT, Matt Palzkill, BRT and Zero Emission Project Manager, GFT** for providing an insightful and informative discussion!

Swings for Scholarship

Our 5th annual Swings for Scholarships continued to be a signature event for the WTS New Jersey Chapter, and we are grateful to everyone who supports this program. The Bedens Brook Club welcomed our chapter back to its beautiful grounds in Skillman on August 6th, 2026. With 48 participants, this year's event brought together members, colleagues, and industry partners for golf, tennis, and friendly competition in support of our scholarship program. Tennis returned as an opportunity for those who prefer the courts to the golf course, helping make the event welcoming to a broader range of participants.

This year, JMT's Team 2, earned first place golf honors, while Team 7, representing AECOM, ALS Global, and AWT Environmental Services, Inc., secured second place. GPI received the Mulligan–Most Honest award; Melissa Dawson of WSP earned Closest to the Pin; and David Murray of HNTB took home the Perfect Putter award. Tennis honors went to Carlos Lopez of Michael Baker International, who received the Billie Jean King Cup, and Tamara Nicholson of Unicorn Consulting, who received the Stefan Edberg Sportsmanship Award. Congratulations to all of our award winners!

Each year, this event helps fund scholarships for New Jersey students pursuing studies in transportation, engineering, science, or related fields who demonstrate leadership, ability, and interest. This year's fundraiser generated approximately $4,500.00 in net proceeds due to sponsorships, ticket sales, and putting competition.

We sincerely thank our Foursome Sponsors—GPI, JMT, Michael Baker International, and TechniQuest—as well as our Favor Sponsor, Michael Baker International, and our Cart/Hole Sponsors—Artheon, HNTB, JMT, STV, and TPD. Their generosity helps us invest in the next generation of transportation leaders.

We sincerely thank our sponsors whose generosity helps us invest in the next generation of transportation leaders.

WTS New Jersey extends a heartfelt thank you to our sponsors, participants, and volunteers for making this year's Swings for Scholarships a success. We look forward to welcoming everyone back for another day on the course and courts next year on August 5th, 2027!

Summer Intern Soiree at Pennington Golf Center

WTS NJ College Outreach hosted a networking summer soiree for student interns and young professionals. We par-"teed" at the Pennington Golf Center where attendees were able to socialize and enjoy a round of mini golf. For some attendees, it was their first time playing (mini) golf and for others, they didn't realize that golf is a big networking component in the industry. The beginning years of your career can feel intimidating when attending industry events. So the committee is grateful to have hosted a small-scale networking event for students and young professionals. Attendees were able to share what they do at their respected companies, the type of projects they've worked on, their engineering undergraduate programs, and what brought them to attend this event. The College Outreach committee reminded attendees about the chapter scholarships that are available to high school, undergraduate and graduate students pursuing careers in transportation. Despite the humid, summer weather, everyone had a great time and we hope to provide this event for the future.

Technical Series Session #5: The Importance of Pavement Preservation in a Ballanced Capital Program

The fifth session covered “The Importance of Pavement Preservation in a Balanced Capital Program”. The session explored how proactive pavement preservation strategies can extend pavement service life, enhance roadway safety, reduce long-term maintenance costs, and help transportation agencies make the most of limited infrastructure resources. A short history of NJDOT's investment in pavement preservation was discussed and how over the last 20 years pavement ratings have improved significantly. NJDOT's 2004–2005 reorganization combined pavement management with pavement design that allowed improvements to be made with the right treatment at the right time. Presenters discussed preservation techniques including slurry seals, microsurfacing, ultra-thin friction courses, and chip sealing, as well as the use of pavement management systems to support data-driven decisions and determine the right treatment at the right time. There were many valuable takeaways for engineers, public works officials, and transportation professionals looking to enhance their pavement preservation programs.

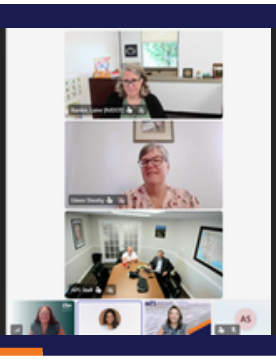

23 participants attended this session. Thanks to IMEG, this session offered 1.0 AICP CM credit to attendees.

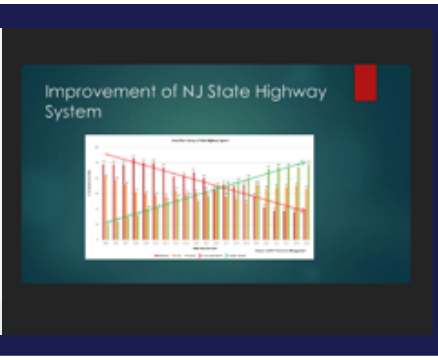

Speaker(s):

We would like to thank our speakers, **John Case, Vice President, Hawk Strategies, Ken Messina, President, Asphalt Paving Systems, Laine Rankin, Assistant Commissioner, NJDOT, and Eileen Sheehy, Former Director of Materials, NJDOT** for providing an insightful and engaging discussion!

WTS NJ and NJTA Driving Forward Together

On September 29, the WTS New Jersey team visited the New Jersey Turnpike Authority (NJTA) to present the chapter's new Agency Affiliate Program to Authority staff and the history of WTS. The NJTA is part of the Inaugural Agency Affiliate Program. As an Agency Affiliate, the NJTA gives its employees expanded access to WTS networking events, mentoring, leadership programs and professional development. NJTA Chief Operating Officer, Stephen Dilts, addressed the gathering and spoke about the value of the partnership with WTS and the Authority's commitment to investing in its people. The session gave staff a chance to learn what the program offers and how to get involved.

This visit marks the start of the Agency Affiliate Program, and WTS New Jersey will be meeting with other transportation agencies across the state in the coming months. The program aims to connect public agency professionals with the wider WTS community, building relationships among agencies, consultants and industry partners while supporting the next generation of transportation leaders. We thank the NJTA for being our first Agency Affiliate and for helping to advance transportation together. Look for updates on new agency partners in upcoming issues.

MENTORING PROGRAM

The WTS New Jersey Mentoring Program continues to build momentum as mentors and mentees engage in professional development, networking, and leadership-building opportunities throughout the 2026 program year. Over the past several months, the program has featured a variety of engaging sessions focused on career growth, personal branding, communication, and presentation skills, providing participants with valuable opportunities to learn from industry professionals and one another.

In July, the group visited the NJDOT Bordentown Training Center, where Andrew Tunnard led a tour of the facility and delivered a presentation focused on “Becoming a Leader” and career growth. The session provided participants with an opportunity to explore professional development from a leadership perspective, encouraging mentors and mentees to reflect on their career paths and the skills needed to continue growing as transportation professionals.

In August, the program hosted its Summer Soirée at Harvest Moon in New Brunswick, bringing participants together for an evening of networking and professional development. Guest speaker, Liz Archer, led a discussion focused on networking, personal branding, and career development, sharing insights on building meaningful professional relationships and intentionally shaping one's professional identity. The cohort was joined by members of the WTS NJ Executive Board who participated in the networking experience! The event provided an opportunity for mentors and mentees to connect in a more informal setting while strengthening relationships across the program and WTS NJ organization.

In September, the group gathered at H&H's Hamilton office for a presentation by Heather Engbretson, CF APMP, focused on effective presentation skills. Heather shared valuable strategies for preparing and delivering engaging presentations, emphasizing the importance of clear messaging, confidence, and connecting with an audience. The session provided participants with practical techniques to strengthen their communication skills and set the stage for the following month's interactive workshop.

Building on September's session, the October meeting gave mentees an opportunity to put their presentation skills into practice. Each mentee prepared and delivered a five-minute presentation to the group, followed by constructive feedback and evaluation from fellow participants. This interactive exercise provided an opportunity to apply the techniques discussed during the previous session, gain experience presenting in front of an audience, and identify areas for continued improvement. The supportive environment encouraged participants to step outside their comfort zones while building confidence and strengthening their public speaking abilities.

Looking ahead, the program will gather at New Jersey Turnpike Authority (NJTA) Headquarters in November, where we will welcome Stephen Dilts as our guest speaker. Steve will share insights on current topics within the transportation industry and offer guidance on the importance of mentorship throughout all stages of one's career. As the 2026 Mentoring Program approaches its conclusion with graduation in January 2027, we look forward to continuing to foster meaningful connections, celebrate the growth of our mentees, and build on the professional relationships developed throughout the year!

COLLEGE OUTREACH

October 5, 2026: SHE-SWE-MEET Engineering and Computer Science Career Fair at Rutgers University

WTS NJ attended the 41st Annual Engineering and Computer Science Career Fair by the Rutgers student chapters of SHE (Society of Hispanic Engineers), SWE (Society of Women Engineers), and MEET (Minority Engineering Educational Task). It was a great day connecting with students who were interested in learning about the transportation industry. We talked about career opportunities in both the public and private sectors. We encouraged students to join the WTS NJ and apply to the chapter scholarships. We look forward to continue engaging with student organizations throughout the state to share the message and mission of WTS.

CALL FOR ABSTRACTS

The WTS New Jersey Programs Committee is excited to invite abstract submissions for upcoming technical sessions and workshops. We are seeking innovative, forward-thinking topics that showcase how the transportation industry is evolving and advancing across all modes.

We welcome proposals from professionals in academia, consulting, public agencies, and industry partners who can share insights on emerging trends, best practices, and lessons learned.

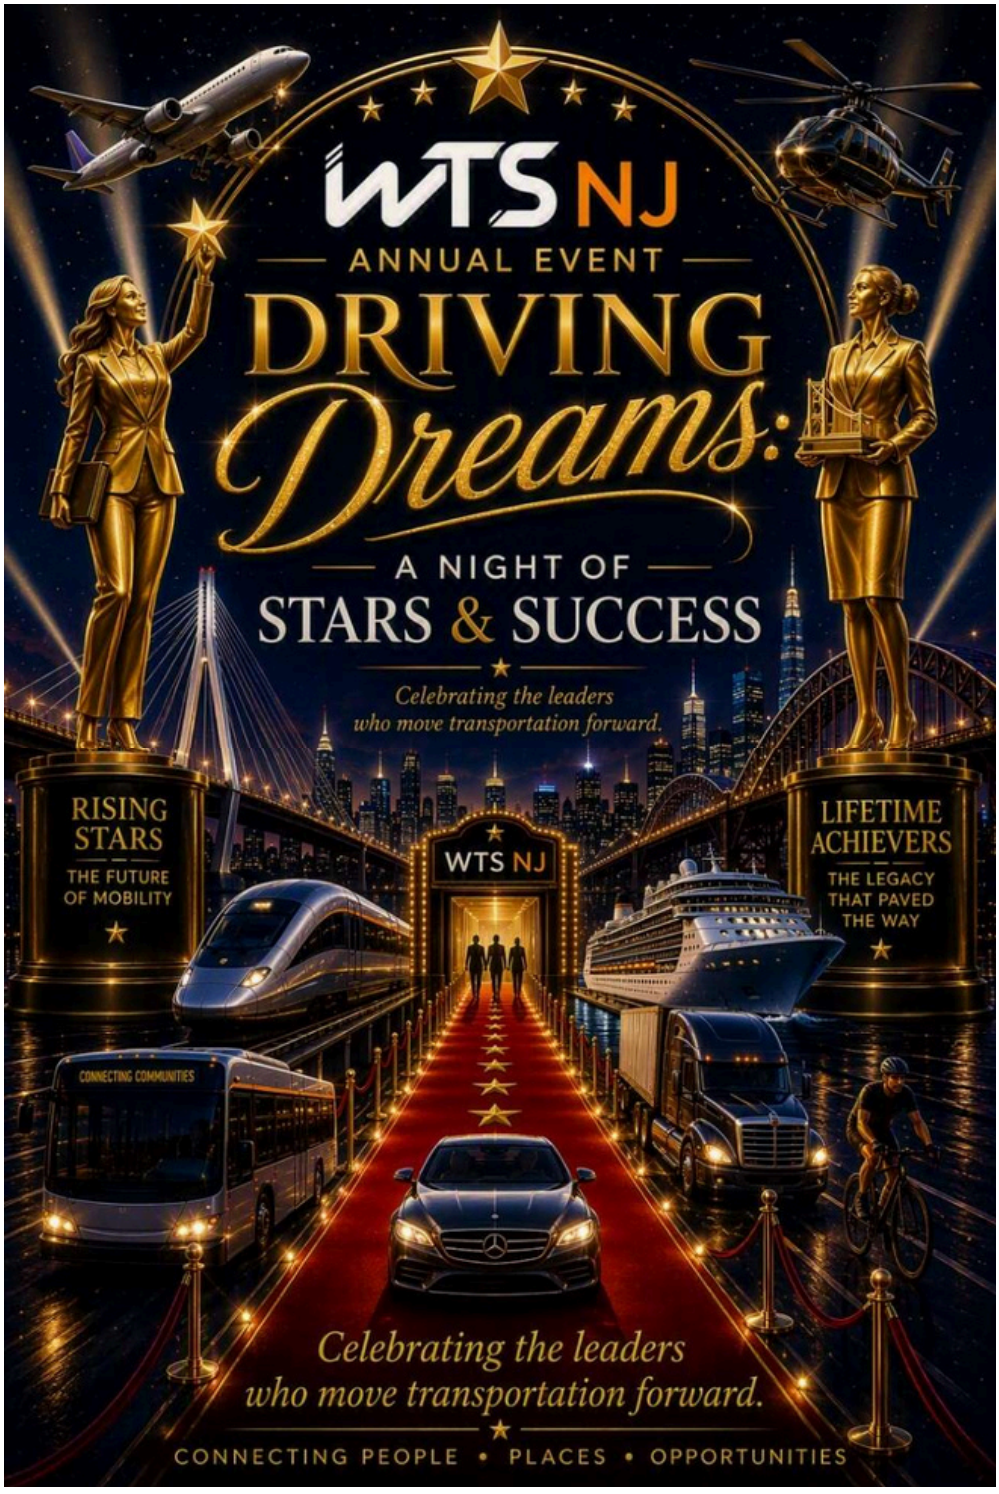

Topics of interest may include, but are not limited to:

- Emerging technologies and digital transformation (AI, data analytics, smart infrastructure)
- Sustainable and resilient transportation solutions
- Multimodal planning and mobility innovations
- Infrastructure design, delivery, and program management
- Equity, accessibility, and community engagement
- Policy, funding, and implementation strategies
- Case studies highlighting successful projects or pilot programs

Proposals may be submitted should clearly outline the topic, key takeaways, and intended audience. Selected presentations will be featured as part of our upcoming technical series, providing a platform to share knowledge and contribute to the continued advancement of our industry.

We encourage both new and experienced presenters to submit and help inspire meaningful dialogue among transportation professionals.

For further details, please visit our website for updates.

2026 AGENCY AFFILIATES

Thank you for your interest in the WTS New Jersey Agency Affiliates Program. This dynamic partnership formally recognizes public agencies that support and champion our mission to advance women in transportation, while expanding access to WTS NJ programs and reinforcing our shared commitment to inclusion across both the public and private sectors. The Agency Affiliate Program was developed with the support of the Board and input from our Advisory Council, which is composed of representatives from ten New Jersey public agencies.
Our chapter uses these funds to develop a suite of professional development, leadership and networking events designed to further the WTS mission of attracting, sustaining, connecting, and advancing women's careers to strengthen the transportation industry. Additionally, through affiliation, your agency will be contributing to our growing mentoring program as well as scholarships for young women planning to enter the transportation industry.

Based on your selected level, Agency Affiliate benefits include:

- Tickets to this year's Annual Meeting
- Individual WTS NJ annual chapter memberships*
- Presentation and Tickets to Corporate Partners & W/M/S/DBE Networking Event
- Spotlight at Annual Meeting
- Highlight in Agency Spotlight e-blast/social media post
- Highlights in WTS NJ Newsletter and Chapter Events
- Opportunities for Staff to Present at Virtual Sessions
- Agency link on WTS NJ Chapter website
- Job postings on chapter website
- Committee Appointments
- Advisory Council Appointment
- Invitation to Board Retreat

*Includes free attendance at member-only events: Approximately 6 accredited virtual technical sessions and 4 quarterly membership events with reduced pricing at all other events.
Review several affiliate levels available to your agency and subsequent related forms at the end of this newsletter.

2026 WTS NJ Agency Affiliates Program
Please contact WTSNJBOARD if you have any questions or would like more information about the WTS NJ Agency Affiliate Program.
Additional Contacts:

President, Jacqueline Rooke jrooke@mbakerintl.com
Chair, Dana Hecht dhecht@hardestyhanover.com
Vice Chair, Genevieve Clifton genevieve.clifton@dot.nj.gov

We're excited to share some BIG NEWS at the end of this month as we welcome our newest committed Agency Affiliates!

We sincerely appreciate your consideration in joining WTS NJ as a founding Agency Affiliate, helping to launch a program that will create lasting impact across our public agencies!

2026 CORPORATE PARTNERS AND AGENCY AFFILIATES

Please join us for our 5th Annual Corporate Partner & Agency Affiliates Networking Event and W/M/S/DBE Expo on Friday, November 20, 2026, from 8:00 AM to 12:00 PM.

This exclusive event will feature a morning of networking with representatives from New Jersey's public transportation agencies, Metropolitan Planning Organizations (MPOs), and professionals from our Corporate Partner firms. This event is open only to our 2026 Corporate Partner firms.

Attendees will enjoy a complimentary breakfast while learning about upcoming contracting opportunities, reconnecting with colleagues and expanding professional networks, and visiting with W/M/S/DBE partner firms at the Expo. *Register here*

We look forward to seeing you on November 20, 2026 at Rutgers University's Bloustein School.

Save the Date: 2027 Corporate Partnership Packets Arrive This December

Planning for 2027 is already underway! WTS New Jersey is excited to share that our 2027 Corporate Partnership packets will be sent out in December.

Corporate Partners play a vital role in supporting chapter programs, scholarships, professional development initiatives, and networking opportunities throughout the year. If your organization is interested in continuing its support or becoming a Corporate Partner for the first time, keep an eye on your inbox and LinkedIn this December for partnership details and benefits.

Thank you for being an important part of the WTS New Jersey community. We look forward to an exciting year ahead.

Please contact Nancy Argueta at nargueta@gftinc.com with any questions.

Save the Date: WTS NJ Annual New Member Welcome & Holiday Gathering

Join WTS NJ on December 10 at Old Man Rafferty's in New Brunswick for our Annual Holiday Gathering! This festive event is a favorite tradition and a wonderful opportunity to mix and mingle with fellow transportation professionals, celebrate the year's accomplishments, and make meaningful connections. This year, we're especially excited to welcome our newest members and help them get the most out of their WTS membership by building relationships, expanding their networks, and getting involved in our community. Of course, no holiday gathering would be complete without our always-entertaining White Elephant gift exchange! Whether you're a longtime member or just joining WTS NJ, we hope you'll join us for an evening of connection, celebration, and holiday fun. Let's close out the year together and make new connections that last well beyond the holidays!
